

# RONNEBY KUNSKAPSKÄLLA (NITUS)

SWEDEN

## NORDIC LEARNING CENTER INNOVATION PARTNERS

## PRODUCT

Higher education, such as university level and vocational school.

## TARGET GROUP

Our students are adults – studying on a higher educational level. The students come from our own municipality, but also from other municipalities in the region.

## ACTIVITIES

At Kunskapskällan we offer support in several ways. We have classic classrooms, equipped with all technics you may need. We also offer smaller rooms for study, which the students can use even during evenings and weekends.

We also offer guidance and technic support. The students can use a copying machine, borrow computers and reference literature

## PARTNERS

Kunskapskällan cooperates with several education providers, including universities. All our programs and courses are provided by others, we never teach.

In order to figure out what competences that's needed in our region, we cooperate with the Swedish public employment service and the labor market.

## ORGANIZATION

Kunskapskällan is a unit within the municipal operations.

## BUDGET

Kunskapskällan has a municipal budget, about 4 million Skr.
