

# HOLBÆK UDDANNELSES- OG STUDIECENTER

DENMARK

## NORDIC LEARNING CENTER INNOVATION PARTNERS

## PRODUCT

- a physical location that offers facilities and equipment for virtual teaching, group work, etc.
- The Science in Nursing as a full education with attendance in Holbæk
- a mediator between students, employers and education
- an engine for local and regional growth and development

## TARGET GROUP

Our target group is adults seeking to take a Higher Education that is in Holbæk or nearby. A special focus is on the potential students who would not have taken an education if it was not provided in the local community. Our target group also consist of people with a vocational education, that could upgrade/top up with further education. Many of our users so far is university students who uses the facilities for the days they do not attend their university. Also, our current users are study groups who uses the facilities to meet up and work together.

## ACTIVITIES

HUSC aspires to attract a palette of varying educations to our local community in some shape or form. That way our students/potential students have a wide range of possibilities when having to choose an education. Together with this an effort is made to create student jobs that is relevant to the given education we seek to attract. The educations we seek to attract is chosen to meet the needs of our current and future business life to create regional growth for the benefit of both citizens, the municipality and the local businesses.

## PARTNERS

HUSC cooperates in various form of partnerships. E.g. with education providers like University College Absalon or Zealand Institute of Business and Technology. Also, cooperation with the local business community like the local hospital. The neighboring municipalities is also partners to HUSC in some relations.

## ORGANIZATION

HUSC is a municipal enterprise and a development project that operates under the municipality of Holbæk.

## BUDGET

HUSC has several funding channels. HUSC primarily funded by the municipality of Holbæk (1,1 mil. DKK per year in 2016-2018), but also has some funding from a regional development project (0,2 mil. DKK per year) and some income from renting the facilities to several education providers (0,1 mil. DKK per year).
